Point-of-Service Operations

Maximize your up-front collections. APA utilizes its best-of-breed processes and unmatched knowledge of programs to improve your existing point-of-service collections and elevate the number of emergency department patients screened. Our advocates:

- Utilize unique workflow processes designed to integrate with your existing collection protocols and practices
- Integrate solutions into your existing front-end process to ensure a seamless patient experience
- Educate patients about all options available to them
- Work with centralized registration units to focus on pre-registration screening where applicable

Disability Services

Simplify the complexity of applying for disability benefits—for both providers and patients.

APA's dedicated team of attorneys, paralegals and disability specialists represent every claimant through all levels of appeal to ensure the fastest approval. Our approach and documented results have been recognized by national research organizations.
